I Submits a copy of the City Improvement Committee's opinion in the matter

2 The City Muncipal Council consider that it is not possible to form any opinion in regard to the suggestions of the Sanitary Surgeon in the absence of a sketch showing the extent considered objectionable and that houses, shops and other properties cost a large sum if they are to be required from the owners and kept clean and that by way of a solution of the difficulty they would propose that permission be refused to build on the vacant sites to the north and west of the thoroughfare and they be kept open.

Submits his views on the Municipal Council's resolution

1st The Senr Surgeon objects to all kinds of traffic involving the production of flies and dust in the neighbourhood of the Hospital. In his original letter he refers to the Coffee shops, grain shops, meat markets, oil mongers, hardware shops and shops dealing in articles of food, as particularly objectionable and recommends that dealers in jewels and clothing might be permitted to open shops there.

the Excise Dept will have to be consulted It is within the power of Govt to shift these shops to some other place.

21 The question of removing the meat and fish markets from their present position is being urged upon repeatedly for the last 8 or 10 years and the question of rebuilding them elsewhere is being considered by the Municipal Council

22 The removal of the gram and other shops is a subject for consideration It is only recently (1898) that the new Zaraffat was opened, and most of the important provision shops are located here. The question of removing them to some other place as submitted is a matter of difficulty

23 The Sen Surgeon acknowledges the impossibility of changing the nature of traffic in these parts all at once, but he urges that persistent efforts with this object in view should be made and increased attention should be paid to keeping the houses and markets in a sanitary condition

Sir,

In continuation of this Office No.G 231 of 20th November 09, I have the honor to recommend that the streets on the west & north of the Victoria Hospital be kept free from all shops of an objectionable nature, & be reserved as far as possible for dwelling houses Particularly objectionable are toddy shops, grain shops, meat markets, oil mongers, hardware shops, all dealers in articles of diet, in fact, all shops involving the production of dust & flies. Perhaps, dealers in jewels & clothing might be permitted to open shops in these streets

2. Very pressingly do I beg that this matter receive the very early & serious consideration of His Highness's Government Small use will there be in all the efforts of the Officers of the Hospital to secure healthy wounds- if flies & dust, laden with organic refuse, are distributed in their wards, & nothing is so calculated to produce these nuisances as the forms of traffic I have alluded to.

3 My attention has of late been particularly drawn to this matter by a disaster that has lately taken place

the

the Victoria Hospital, when a strong man in good health entered the Hospital, was operated on & died of a violent epsis.

4 Every effort must therefore be put forth to secure a satisfactory environment to our Hospitals

Sir,

With reference to your No 4530/Med 452-09-4 dated 26th November 1910, forwarding proceedings of Municipal Council, Bangalore City, in regard to objectionable merchandise being transacted in the environment of the Victoria Hospital, I have the honor to remark that it needs no maps to indicate to any one who will go to the spot to make the necessary enquiry, the sort of traffic that should cease as early as possible in the environment of a hospital- As I have said in my letter No G 593 dated 11-6-1910, it is traffic that involves the production of flies & dust that have to be avoided This does not mean shops alone Meat markets, and ill kept markets of any kind are worse than shops

2 Only yesterday (1-12-10) as I was passing the Hospital on the north side, with a light N E wind, most offensive smells were perceptible, and it may be taken for granted that these smells emanated from a source which produced flies as well I know it is not possible to change the nature of the traffic there all at once, but persistent effort with this object in view should be made,

S i r,

With reference to your letter No 5612/Munl. 452-09-2 dated the 23rd December 1910 IN RE the subject keeping clean the houses, shops and markets etc , to the North and West of the Victoria Hospital, I have the honour to state that steps are being taken in correspondence with the Sanitary Commissioner and the Deputy Commissioner, Bangalore District, for the shifting of the Fish and Mutton Stalls and the Toddy shop respectively.

2 In regard to the observation made in para 2 of the letter under reply, I beg to state that Mr C V. Narasimmiengar, Advocate, has applied for a license to build a shop on his site on the Mysore Road, situated nearly opposite the New Tharagupet Road and about 100 Yds. to t h e North-West of the Victoria Hospital

In the absence of actual acquisition of the said site, there is no provision in the Municipal Regulation to refuse a license No object would also be gained by acquiring the above single site unless it is decided to acquire all the vacant private lands in the neighbourhood

3 As the only course open under the circumstances seems to be to restrict the nature and design of the building and, as such a procedure requires special sanction of Government under clause (2) of Section 96 of the Municipal Regulation, I request that you would be so good as to obtain the necessary sanction of Government in the matter at a very early date, if they deem fit, so as to empower the President to restrict the applicant to build a dwelling house instead of a Mandy or shop in that locality

requisition of the kind referred to, is of no avail and that you should specify the properties, if any, which have to be acquired should be specified.

2 I am to invite your attention to the fact that the new Isolation was first constructed before the Victoria Hospital came the built and subsequently enlarged in the neighbourhood thereof and to request you to explain to Govt why the present objections are taken and to state whether the Municipal Corpn are prepared to pay, besides the cost of interfering with the free use of the private properties in that locality.

3 I am to add that Govt agree with your proposal that the meat and mutton stalls and coir shops must be removed from the vicinity of the Victoria Hospital and to request you for this purpose to move the Deputy Commr, the Dy Comm, Bangalore Dt, and the Secy, Bangalore City Mul Council. who will assist in the matter I have &c.,
